Washington, July 15, 1 a m .- For Missouri and Kansas: Fair weather, stationery temperature, southerly winds, becoming variable in Kansas.

WASHINGTON, July 14.—The weather has prevalled in nearly every section of the country during the past week is not due, the signal office says, to any exceptional causes and can not be predicted at present. The weather was the paying point, and he argued that the considerably cooler today in some parts of present rates are a restoration to normal the United States than during the past twenty-four hours. The temperature has fallen from 8 to 12 degrees in western Dakota, Wyoming, Montana and Colorado. A cool wave has also made itself felt in Texas, the Indian Territory, Arkansas and Louisiana, where a drop of 4 to 20 degrees has occurred, although the thermometer still hovers at 80. The warm weather has also been broken in the Lake Superior region, Pennsylvania, New York and New England by a reduction of 4 to 8 degrees in the temperature. The heat continues unabated in Kansas, Nebraska, Minnesota, western Dakota and south Atlantic states. Ft. Sully, D. T., at 3 o'clock today, Washington time, enjoyed the distinction of being the hottest place in the United States, with the thermometer at 102

INTERSTATE COMMERCE. The Commission Hear Responses Complaints Hitherto Filed.

WASHINGTON, July 14 .- S. S. Burdette attorney for the St. Paul, Minneapolls & The Railroad King and Prince Manitoba Railway Co., appeared before the interstate commerce commission this morning and submitted two motions. The first was in substance to dismiss the complaints of Holbrook, Derby and others, farmers of Dakota, an the general ground that the matters complained of antedated the passage of the interstate law. The second moground that the so-called testimony submitted was taken without netice to defendant and without giving an opportunity to ross-examine witnesses.

The commission after a brief consulta-

tion stated to Mr. Burdette there seemed to be no reason for his further sttendance and its decision would be made a matter of record. The complainants were not pres ent. This is the case of a community of Dakota farmers who complain that the Manitoba road refused, last year, to furnish cars for the transportation of grain, incidentally averring that the refusal was part of a plan to manipulate the price of grain. Mr. Burdette said that the company now had plenty of cars and would grain. Mr. Burdette said that the com-pany now had plenty of cars and would supply the demand. The action of the commission is equivalent to a dismissal. Mr. A. T.
